Accessing the Libraries’ Information Literacy Tutorials in Blackboard

- Our new Information Literacy Tutorials will replace the Information Literacy Modules by fall 2016. During spring 2016, we will roll out the tutorials on a pilot basis.
- The new tutorials are hosted in a self-enroll Blackboard Organization called ODU Libraries Information Literacy Tutorials. Students may enter the space using a Midas ID/password. Students and faculty will only need to enroll in our space one time, and then they will continually have access from their personal Blackboard pages.
- The tutorials are interactive, with built-in quiz questions. Students will see their results at the end of each tutorial. They will be given a chance to print their quiz results, or save as a screenshot to email to an instructor, if so desired.
